

Anchor Monitoring Cameras

Focus Technology Solutions have the toughest, most reliable 360 degree pan and tilt camera for the offshore industry.

The camera is one of the only cameras on the market to offer continuous 360 degree pan and tilt rotation combined with unmatched image quality and light sensitivity.

Slip-rings on both the pan and tilt axis mean the camera can spin continuous on both axis without any stops. This means no blind spots and the ultimate in flexibility.

General Specifications

Depth rating:	150m
View range:	360°
Lighting:	Additional separate lighting provided for 24 hr operation.
Connection:	Heavy Duty Wet mateable connection
Materials:	Corrosion resistant polymers
