ABOUT US

Western Australia based, but operated globally.

We provide safe and efficient marine inspection services with minimal impact or downtime. Our reports can deliver meaningful analysis of accurate and precise sensor data. We have a successful history of Remotely operated Vehicle (ROV) inspection, integrating the latest equipment to employ world-renowned techniques in innovative ways. With our knowledge, skills, and equipment, we eliminate diving incidents, and guarantee reduced costs, personnel, space, and delays. Planned maintenance schedules ensure all our equipment is safe and reliable.

TESTIMONIAL

“Focus Subsea provided a cost effective and very safe alternative for our jack up leg and spud can inspections while we continued unhindered with our day to day operations on location.”

Bill Smith, Sri Lankan Rig Manager

ACCREDITATIONS

Subsea Inspection Package

Focus Technology Solutions has proven experience in subsea asset and infrastructure inspection. Our subsea inspection package delivered quick mobilisation, significant cost savings for inspection campaign in Australia and around the world.

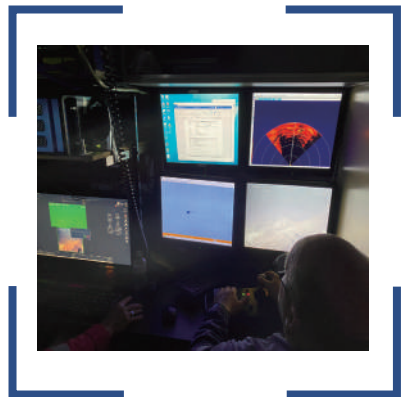

Applications

- ❑ GVI & CVI of subsea pipeline, platforms and associated structures
- ❑ CP/FMD/UT testing on pipeline and platforms
- ❑ MBES imaging/profiling on pipeline and seabed
- ❑ 3D photogrammetry/laser scanning on subsea structures
- ❑ Rotary brush/Water jetting for spot cleaning
- ❑ Gas & soil sampling
- ❑ Gas leak detection
- ❑ Sub-bottom profiling

Benefits

- ❑ The industry standard for observation class ROV
- ❑ A high power vehicle very capable in high currents
- ❑ Fully containerised system with integral crane uses minimal deck space
- ❑ Can be deployed from a small vessel of opportunity at a fraction of the cost of a conventional inspection vessel.

Description

Typical subsea inspection equipment:

- Seaeye Falcon ROV (x2)
- (Optional) Djinda ROV (x1)
- HD camera (x2)
- LED lights (x2)
- Obstacle avoidance sonar (x1)
- Single Function Manipulator (x1)
- CP/FMD/UTM (x1)
- MBES ready (x1)
- Pipetracking system ready (x1)
- Kevrek Crane (x1)
- 300m Umbilical & spare (x1)
- ROV control container (x1)
- (Optional) Workshop container (x1)
- (Optional) HP water jet/rotary brush
